Data Collection Performance Like No Other

With its compact and lightweight form factor, the TSL® 1153 Bluetooth® UHF RFID reader performs like no other reader, giving the user an extremely compact and lightweight multifunction data collection device. Designed to read and write to EPC Class 1 Gen 2 (ISO18000-6C) tags, the 1153 includes high performance 2D data scanning to bring unparalleled data collection capabilities to any host it is connected to. The Motorola SE4500 engine incorporates fast-pulse illumination and fast sensor shutter speeds, delivering outstanding motion tolerance and class leading 1D and 2D data capture.

Integrate into Applications with Ease

The new 1153 Bluetooth® UHF RFID reader incorporates TSL’s unique ASCII 2 protocol for faster and easier application development. This sophisticated parameterised protocol provides the developer with a powerful set of commands that carry out multiple actions locally within the reader. This approach enables multiple tag operations to be executed using simple pre-configured ASCII commands which not only speeds integration of the reader into applications but also abstracts the developer from some of the complexities of the underlying Native API and ultimately results in unparalleled levels of performance.

Platform Independent UHF RFID Reader

Use existing Bluetooth® wireless technology enabled1 host devices including Enterprise Handhelds, Consumer Phones, Touchscreen MP3 players, Tablets and PC’s – the 1153 will bring high performance RFID and 2D scanning to all these devices running a wide range of Operating Systems. The choice of host device is yours - from low cost touchscreen MP3 players through to fully featured Enterprise Handheld Terminals. The choice of ergonomic style includes either a ‘back of hand’ mount or an arm mount option for scan intensive RFID and 2D bar code data collection applications. EPC data can be stored on an optional Micro SD memory card (up to 500 million transponder EPCs on a 32GB card - separate purchase from alternative supplier). This provides the ability to collect and log data even if USB or Bluetooth® communication channels are not available.

A Configuration To Suit Your Application

The choice of host device is yours - from low cost touchscreen MP3 players through to fully featured Enterprise Handheld Terminals. The choice of ergonomic style includes either a ‘back of hand’ mount or an arm mount option for scan intensive RFID and 2D bar code data collection applications. EPC data can be stored on an optional Micro SD memory card (up to 500 million transponder EPCs on a 32GB card - separate purchase from alternative supplier). This provides the ability to collect and log data even if USB or Bluetooth® communication channels are not available.

Features:

- High Performance Bluetooth® Multi-modal Data Capture
- UHF RFID and 2D barcode data capture in one integrated barcode device.
- Hardware Platform Independence
- Operates with wide variety of Bluetooth® wireless technology enabled host devices including touchscreen MP3 players, phones, tablets, Enterprise Handhelds and PC’s.
- OS Independence
- The reader is compatible with Android, iOS and Windows.
- Batch Data Collection
- Removable high capacity Micro SD data card and real time clock for extended batch data collection with time stamp independent of the host connection.
- High Performance barcode scanning
- Integrated Motorola SE4500 imaging engine provides class leading barcode scan performance via its unique patent pending fast pulse illumination which delivers outstanding motion tolerance and class leading 1D and 2D data capture.

Made for iPod, iPhone, iPad

1153 Bluetooth® Wearable UHF RFID Reader Datasheet V1.24
1153 SPECIFICATIONS

Physical and Environmental Characteristics

Dimensions (LxWxH):
10.2 cm x 5.5 cm x 5.6 cm

Weight (inc battery):
157 g / 5.5 oz

User input:
Two Trigger buttons

User feedback:
Speaker, vibration motor, three LEDs

Power:
Removable, rechargeable 3.7 volt Lithium Polymer 1130 mAh battery pack, 4.2 watt hrs

Enclosure materials:
Polycarbonate

Performance Characteristics

RFID engine:
AMS AS3993 based

Communication protocols:
TSL® ASCII 2.0 parameterised command set

Memory:
Optional Micro SD card (maximum 32GB capacity supported). Up to 500 million date and time stamped EPCs can be stored on a 32GB Micro SD card (separate purchase from alternative supplier).

Compatible Host devices (Bluetooth®):
Any Bluetooth® Host1 supporting the Serial Port Profile (SPP) or Human Interface Device (HID) profile (Android, iOS, Mac, Windows). Comparison of Bluetooth® modes for TSL® UHF Readers.

Compatible Host devices (USB):
Any USB host with FTDI VCP driver support (Windows, Linux, Mac, Android)

Environmental

Operating Temp.:
-10°C to 40°C (14°F to 104°F)

Charging Temp.:
5°C to 40°C (41°F to 104°F)

Storage Temp.:
Less than 1 month at -20 to +60°C (-4°F to 140°F)
Less than 3 months at -20°C to +45°C (-4°F to 113°F)
Less than 1 year at -20°C to +30°C (-4°F to 86°F)

Humidity:
5% to 85% non-condensing

Drop Spec:
Multiple drops to concrete: 4 ft./1.2 m ambient, 3ft / 0.9 m across the operating temperature range

Tumble:
500 0.5 metre tumbles at room temperature (1,000 cycles)

Environmental Sealing:
IP54

Electrostatic Discharge (ESD):
± 15kVdc air discharge; ± 8kVdc contact discharge

MIL-STD 810F:
Meets and exceeds applicable MIL-STD 810F for drop, tumble and sealing

RFID Performance

Standards supported:
EPC Class 1 Gen 2

Nominal read range:
up to 6.5 ft./up to 2 m.

Nominal write range:
up to 3.3 ft./up to 1 m.

Field:
150-degree forward facing (approx.) measured from front of device

Antenna:
Internal Circularly Polarized

Barcode Scanning

Imager:
Motorola SE4500 2D imager

Sensor Resolution:
752 x 480 pixels

Field of View:
Horizontal: 40°; Vertical: 25°

Focal Distance:
SR: 8 in. DL: 5.3 in. HD: 2.9 in.

Aiming LED (VLD):
655 ±10 nm Laser

Illumination Element:
625 ±5 nm LEDs (2x)

Min. Print Contrast:
Minimum 25%

Symbologies Supported:
1D: All major codes
2D: PDF417, MicroPDF417, Composite, RSS, TLC-39, Datamatrix, QR code, Micro QR code, Aztec, MaxiCode Postal Codes: US PostNet, US Planet, UK Postal, Australian Postal, Japan Postal Dutch Postal (KIX)

Ranges:

Communication

Bluetooth®:
SPP Profile, HID Profile, Apple iAP

Bluetooth® Power:
Class 2

Bluetooth® Range:
30m

Bluetooth® Pairing:
PIN, Simple Secure Pairing, NFC OOB Pairing

Peripherals and Accessories

External interface:
MicroUSB connector for battery charging, and USB connectivity

USB operating modes:
Tethered for real time data capture in conjunction with SmartWedge software. Download of stored scan data.

Optional desktop charger:
TSL® 1136 4-Slot Desktop Battery Charger

Regulatory

General:
Approved for use in the US, Canada, Europe, Australia, Thailand and UAE.

Electrical Safety:
Certified to UL60950-1, CSA C22.2 No. 60950-1, IEC 60950-1, EN 60950-1

EMI/RFI:
USA: FCC Part 15
Canada: ICES 003 Class B
EU: EN 301 489-3, EN 301 489-1, EN 301 489-17, EN 302-208, EN55022 Class B, EN55024 and other countries’ specific standards.

Laser Safety:
IEC Class2/FDA Class II in accordance with IEC60825-1/EN60825-1, 21CFR1040.10

Compatible Bluetooth® stack required in the Host device

Tag Read/Write performance is dependent on tag type, items tagged, number of tags in the field and other radio and environmental factors

Artificial lighting can affect scanning performance

Frequency Range:
EU: 865-868MHz; US: 902-928MHz

Output Power:
25dBm maximum

WARRANTY

Warranty

The TSL® 1153 reader is warranted against defects in workmanship and materials for a period of one year (12 months) from date of shipment, provided the product remains unmodified and is operated under normal and proper conditions.

Terms

“Made for iPod,” “Made for iPhone,” and “Made for iPad” mean that an electronic accessory has been designed to connect specifically to iPod, iPhone, or iPad, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod, iPhone, or iPad may affect wireless performance.

iPad, iPhone, iPod and iPod touch are trademarks of Apple Inc., registered in the U.S. and other countries.

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Technology Solutions UK Ltd is under license. Other trademarks and trade names are those of their respective owners.

ABOUT TSL®

TSL® designs and manufactures both standard and custom embedded, snap on and standalone peripherals for handheld computer terminals. Embedded technologies include:

- RFID - Low Frequency, High Frequency & UHF
- Bluetooth® wireless technology
- Contact Smartcard
- Fingerprint Biometrics
- 1D and 2D Barcode Scanning
- Magnetic Card Readers
- OCR-B and ePassport

Utilizing class leading Industrial design, TSL® develops products from concept through to high volume manufacture for Blue Chip companies around the world. Using the above technologies TSL® develops innovative products in a timely and cost effective manner for a broad range of handheld devices.
