# ACCESSING RFID EXPLORER INVENTORY LISTS FROM iOS DEVICES

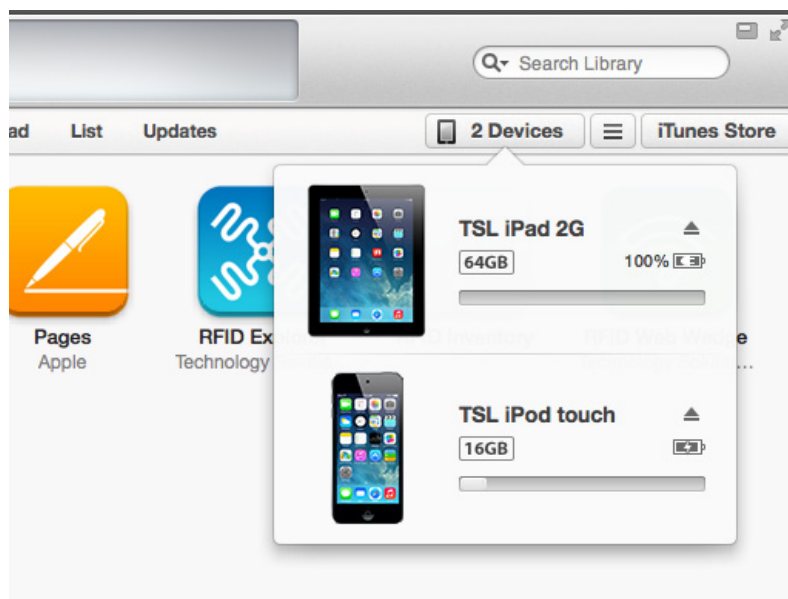

When using the Inventory screen in RFID Explorer for iOS, lists of scanned tags (and barcodes) can be saved before clearing the screen. These lists are stored in RFID Explorer's shared files area on the device.

**FIGURE 1:** Saving Tag lists in RFID Explorer on an iPod Touch

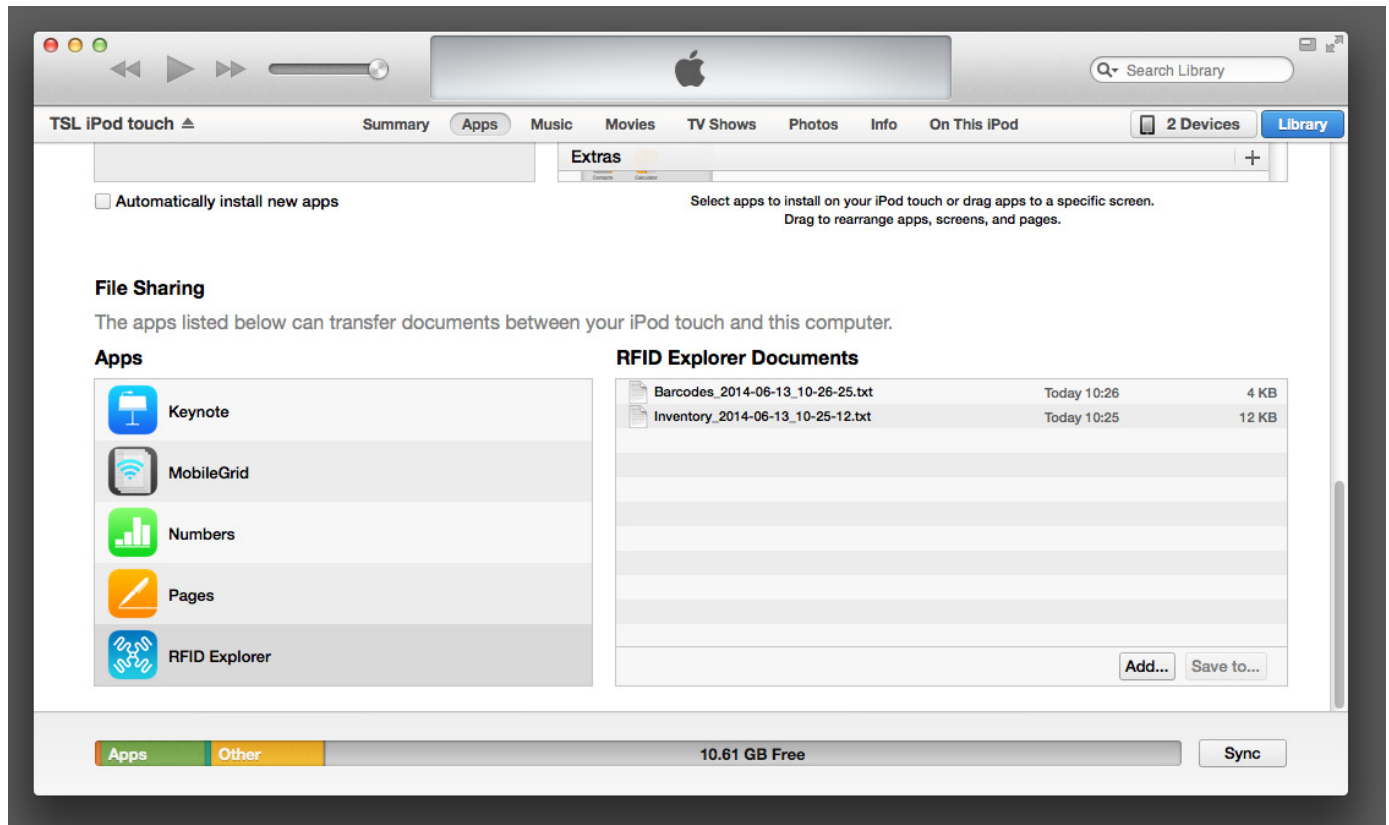

To access the saved files you will require iTunes and a Mac or PC.

1. Launch iTunes and connect your device using the USB cable.
2. Select your device from the Devices menu

**FIGURE 2:** The iTunes Device list

3. Select the Apps section from the sections listed across the top row and scroll until the File Sharing section is visible.

**FIGURE 3:** RFID Explorer Documents

4. Click on RFID Explorer to show all saved tag lists (and Barcode lists) in the RFID Explorer Documents section. Each list has a timestamp appended to the file name. The files Inventory\_Current.txt and Barcodes\_Current.txt contain any unsaved data on the attached device.
5. Required lists can then be dragged directly from the RFID Explorer Documents section or selected and then saved using the Save to... button.

# ABOUT TSL

## ABOUT

TSL designs and manufactures both standard and custom embedded, snap on and standalone peripherals for handheld computer terminals. Embedded technologies include:

- RFID - Low Frequency, High Frequency & UHF
- *Bluetooth*<sup>®</sup> wireless technology
- Contact Smartcard
- Fingerprint Biometrics
- 1D and 2D Barcode Scanning
- Magnetic Card Readers
- OCR-B and ePassport

Utilizing class leading Industrial design, TSL develops products from concept through to high volume manufacture for Blue Chip companies around the world. Using the above technologies TSL develops innovative products in a timely and cost effective manner for a broad range of handheld devices.
