

ACCESSING RFID EXPLORER INVENTORY LISTS FROM IOS DEVICES

When using the Inventory screen in RFID Explorer for iOS, lists of scanned tags (and barcodes) can be saved before clearing the screen. These lists are stored in RFID Explorer's shared files area on the device.

- 4. Click on RFID Explorer to show all saved tag lists (and Barcode lists) in the RFID Explorer Documents section. Each list has a timestamp appended to the file name. The files Inventory_Current.txt and Barcodes_Current. txt contain any unsaved data on the attached device.
- 5. Required lists can then be dragged directly from the RFID Explorer Documents section or selected and then saved using the Save to... button.

ABOUT

ABOUT TSL®

Technology Solutions UK Ltd (TSL[®]), part of HID Global, is a leading manufacturer of high performance mobile RFID readers used to identify and track products, assets, data or personnel.

For over two decades, TSL[®] has delivered innovative data capture solutions to Fortune 500 companies around the world using a global network of distributors and system integrators. Specialist in-house teams design all aspects of the finished products and software ecosystems, including electronics, firmware, application development tools, RF design and injection mould tooling.

TSL® is an ISO 9001:2015 certified company.

ISO 9001: 2015
