

Intelligent Inventory & Asset Tracking

A comprehensive solution that allows healthcare organizations to stay 'Service Ready' by efficiently managing inventory of equipment and controlled substances. With HID's TSL Readers and Seal Tags, you can easily track and monitor stock levels, expiration dates, and dispensing history in real time.

Stay Service Ready.

Real-Time Tracking

Monitor the movement of your assets in real-time, ensuring you always know where your valuable resources are located.

Insights & Reporting

Track usage and service data effortlessly with an inventory consumption report to make informed budgeting decisions.

Alerting

Get critical alerts, such as 'temperature has exceeded recommended thresholds,' ensuring the safety and integrity of your assets.

On-The-Go Monitoring

From anywhere, at any time, control access to your narcotics and view comprehensive data.

Inventory Management

Get control over your inventory by tracking all services performed on specific inventory.

Get peace of mind that your assets are safe, secure and accountable.
